

Bronze Health Program

The Bronze Health Program includes 2 visits per year and all of the vaccinations listed. No farm call fees are charged for these two visits. Seasonal vaccines are done in the spring and non-seasonal vaccines are done in the fall. The Bronze Health Program is intended for low-risk horses that do not come in contact with horses from other locations. A clinical parasite control program can be added to the Bronze Health Program for an additional fee. The rotational deworming program is not available with the Bronze Health Program.
